## NOTICE

**To: Ashland Street Area Residents**

**Date: July 15, 2020**

**Subject: 2021 Water Main Improvement Project – Bypass Hookup Update**

The bypass hookups have been delayed slightly and is now planned to start on Wednesday July 21<sup>st</sup> at 8am, we will begin hooking up the bypass to your house via hoses to your outside spigots. The contractor (R&D Site Development) and a City representative will need to access the water meter in your home to shut it off. If you will not be home during the day on Wednesday July 21st or Thursday July 22nd from 8am-3pm, please call the contractor to schedule an appointment. We can schedule appointments starting at 7am if necessary.

**R&D Site Development**  
**978-374-4353**

Melrose DPW will have a full time inspector on the project site from our Water and/or Engineering Divisions throughout the work. If you have questions during construction, please ask the City employee onsite or call Melrose Engineering Division at 781-979-4172.

Thank you for your patience during this important project.
