

Natural Gas Work in Melrose (work order #1250876)

September 24, 2021

Dear City Officials,

National Grid is committed to safely and reliably delivering energy to our community. That's why we are replacing the natural gas main at **5 to 43 E. Wyoming AVE.; 4 to 16 Chestnut ST., Melrose, MA.** As part of this project, we will also replace the natural gas service piping that connects the main to the customer's gas meters. Approximately **27** premises are within the construction limits.

- **Social Distancing remains in effect. Mains and services can be worked.**

Construction is expected to begin on **September 29, 2021** and anticipated to last to **November 19, 2021** weather permitting. We will work hard to complete this project promptly and with minimal disruption to the community. Visit ngrid.com/mainline to view a YouTube video on this gas main replacement process. A second video explaining the replacement of the service pipe to customer homes is available at ngrid.com/serviceline.

Enclosed is a notification that will be distributed to all affected constituents. We're here for you if you have any questions about this project. Please contact me at **1-781-388-5367**.

We look forward to working with you as we upgrade our community's infrastructure.

Sincerely,
Daniel A. Cameron
