# NOTICE

**To:** Residents of Bow Street

**Date:** April 21, 2022

**Subject:** Sewer repairs Bow Street

As part of our ongoing utility improvements program, two sections of sewer pipe on Bow Street were identified for replacement due to poor condition. This work is planned for **April 27-May 4, 2022**. Work hours are 7 AM to 5 PM. The project area is shown below.

During the course of this work, residents within the immediate project area should not experience any periods of interruption of sewer service but may experience inconveniences due to traffic disruption and other impacts typical of heavy roadway and utility construction. Although not anticipated, you will be notified individually should unforeseen circumstances result in sewer service disruptions at your property. Following excavation, disturbed areas of pavement will be permanently restored.

If you have questions during construction, please call the Melrose DPW Engineering Division at 781-979-4172. Should any emergencies arise after normal business hours, please contact the Melrose Police Department at 781-665-1212, who will notify the appropriate project representatives.

Thank you for your patience during this important work.
