

STATUS REPORT

1 INDIAN HILL LANE

OCTOBER 18, 2011

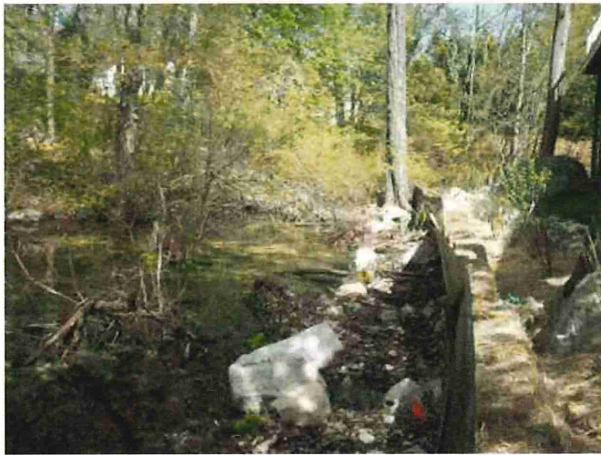

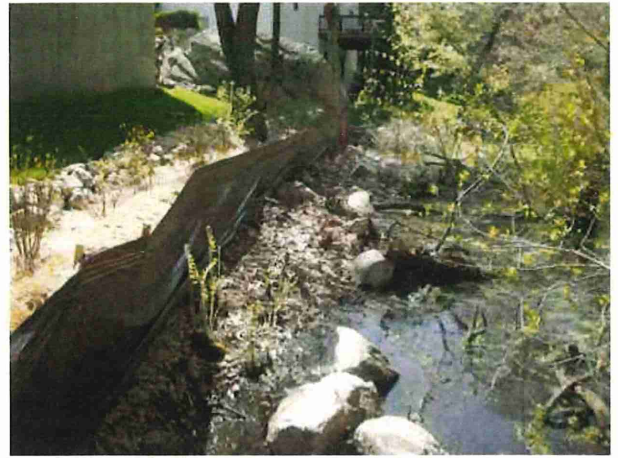

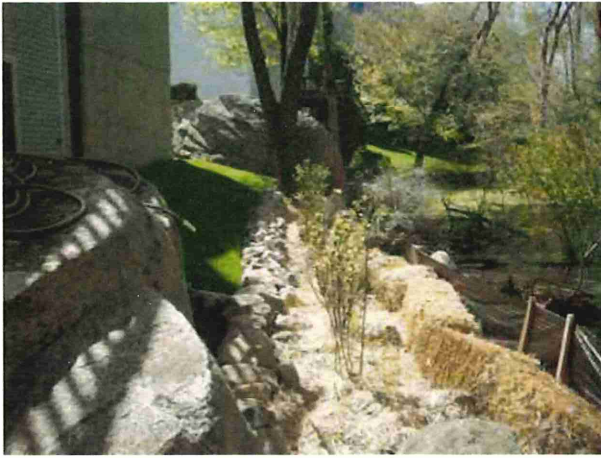

An Administrative Consent Order with Penalty (ACOP) was issued by the Department on January 24, 2011 regarding the Property owned by Mr. William J. Fogarty at 1 Indian Hill Lane. Item 7, under Section III. Disposition and Order, identifies a schedule of activities to be performed. Section B requires that, no later than June 1, 2011, "respondent shall establish a planted buffer of native vegetation in accordance with the Final Grading and planting plan". Section D requires that sedimentation controls be installed and maintained; Section E directs "respondent . . . remove debris, including stone, brick, concrete, branches, and logs that have been deposited on the site and disposed of these materials in a legal manner" including debris in the wetland reachable by hand. To ensure compliance with these elements of the work, ATP Environmental inspected the property on May 6, 2011 and found the site to be managed in a manner consistent with the above relevant sections of the ACOP. Pictures taken during the May inspection are attached to this Status Report.

Section G under Item 7 requires that a "Status Report" be submitted, including photographs and an as-built plan documenting grading and planting in accordance with the ACOP. By this Report, the attached as-built plan is hereby submitted, along with related photographs taken October 18, 2011. As indicated on the plan, minor changes in wall alignment were made from the original plan at the north end and the south end, both changes resulting in an increase in the distance to the wetland from the new stone wall.

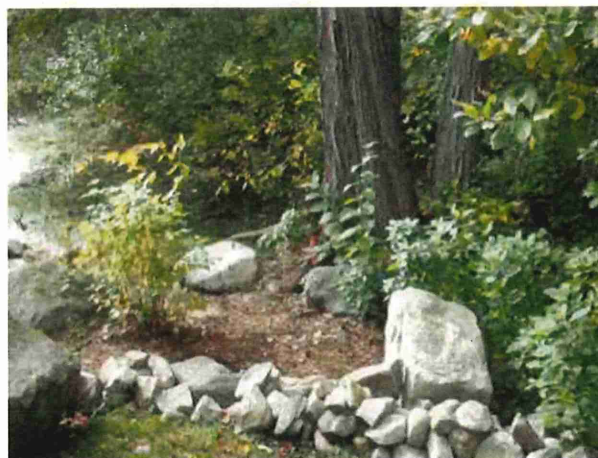

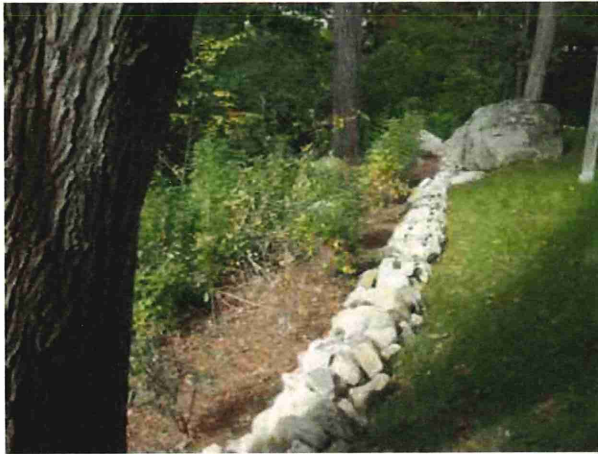

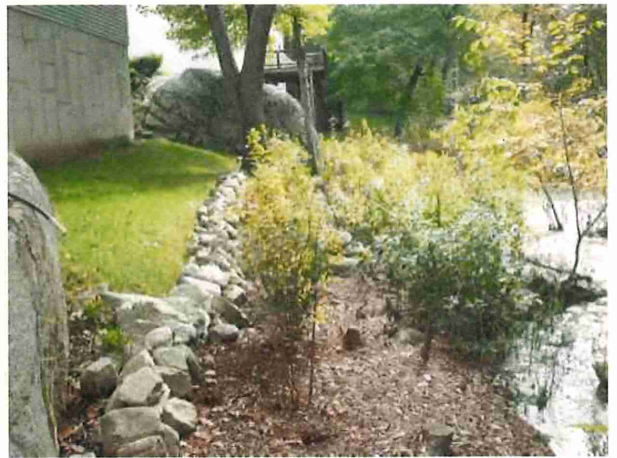

The next formal report (Final Report") is due MassDEP no later than October 1, 2013 at which time input from a wetlands or landscaping professional is to be included.

A handwritten signature in black ink, appearing to read 'A. Thomas Pawlina'.
