

INTERSECTION IMPROVEMENTS AT LYNNFELLS PARKWAY AT MELROSE STREET, MELROSE

DCR will be performing soil borings for geotechnical exploration at the intersection of Lynn Fells Parkway and Melrose Street from October 16 to October 18, 2023. Soil boring will take place between 7:00 am in the morning to 3:00 pm in the afternoon. Geotechnical exploration is needed to properly design traffic signal mast arm foundations. Police detail will help facilitate vehicular traffic, pedestrian, and bicyclist through the work area while soil boring is taking place.

The contractor may be on-site earlier but boring work will not begin until after morning school drop-off.
