

## CONSTRUCTION NOTICE

Dear Resident/Business Owner:

This is an important notice informing you National Grid will be working in your neighborhood on **Laurel St from Slayton Rd to the dead end; and Cricklewood Ln from Slayton Rd to Laurel St** in order to replace and/or relocate the gas main. **The work will begin on or about June 20th, 2022**, and will continue for approximately 8 weeks. Work will generally take place from 7am- 3:30pm, Monday-Friday, and Saturdays 8am-4pm with prior City approval. National Grid would like to perform this work under our Proactive Main Replacement Program, which targets potential leak prone pipe by many factors including material and age of the facilities. **A neighborhood meeting will be held on the corner of Laurel St and Cricklewood Ln on Monday, June 13th, at 6:00 pm. A representative from National Grid will be there to discuss the project and answer any questions.**

National Grid customers, within the scope of the project, will have their gas services replaced and transferred to the new gas main in the street. Each gas service transfer will be scheduled in advance with the customer and they can expect a short interruption of gas service on the day of the work on the service. The customer will need to allow our contractor and company technicians access to the property in order to restore the gas service. We apologize in advance for any inconvenience, but this project is part of our commitment to provide continuous improvements and keep the natural gas delivery system safe and reliable. **Please note that Covid-19 guidelines will be followed at all times.**

**Guidelines we will follow**

- Proper PPE is required at all times.
    - PPE includes but is not limited to hard hats, safety glasses, gloves, safety toe boots, reflective vest, face shield or face covering.
    - PPE shall be cleaned before and after use.
  - Each job site shall have a laminated copy of the COVID-19 Work Safety Plan.
  - Hand shaking and other physical contact is prohibited.
  - As part of daily health screening, customers will be asked about current health status before employees enter a property.
  - All employees and visitors must implement social distancing by maintaining a minimum distance of 6 feet from other individuals wherever possible.
  - Hand washing stations will be present at all times.
- 
- National Grid and/or a qualified contractor (RJ Devereaux Corp) will perform the work. A police detail will be provided. The road will be open to the public and parking may be limited. Expect delays and please use an alternate route if possible. A construction foreman with appropriate identification will be on site to address your parking needs throughout the duration of the project.
  - Meters may need to be relocated to the outside of the home or business.
  - There may be a lag between temporary and permanent restoration of the street and sidewalk, depending on weather and ground conditions. All restoration details have been coordinated through the Melrose DPW. **If you have any questions about the project, please call John DeAngelis, Construction Supervisor, at 781-686-0324, or Scott Dixon, City of Melrose DPW, at 781-979-4172.** For general inquiries, National Grid Customer Service can be reached 24/7 at 1-800-233-5325.

## NOT A NATIONAL GRID NATURAL GAS CUSTOMER?

If you do not have a gas service to your home/business or are not currently using natural gas for heating, this is the easiest time to make the switch to clean, reliable natural gas. Please be aware that if your street is repaved it will be some years before National Grid has permission to reopen the street and/or sidewalk. For more details about our many conversion incentives, please call 1-877-696-4743.

Sincerely,

National Grid
